

From Two.Six

The shape is sinuous and appealing, a female body revealed in an hourglass, with an experimental and sculptural character. The solid wood, manually crafted, harmoniously coexists with burel, a highly resistant and durable traditional Portuguese fabric made from wool. That's why each Swithy is unique and imperfect. A perfect imperfection of the human hand that worked it and of Nature by the variations of the wood which composes it. Be Swithy!
